Falkland Primary School

Online Safety Policy

Safeguarding Statement

The school is committed to safeguarding children and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment.

Status	Date Approved	Next Review
Non Statutory	April 2026	April 2028

Statement of Intent

Falkland Primary School understands that using online services is an important aspect of raising educational standards, promoting pupil achievement, and enhancing teaching and learning. The use of online services is embedded throughout the school; therefore, there are a number of controls in place to ensure the safety of pupils and staff.

The breadth of issues classified within online safety is considerable, but they can be categorised into four areas of risk:

- **Content**: Being exposed to illegal, inappropriate or harmful material, e.g. pornography, fake news, self-harm and suicide, and discriminatory or extremist views. Includes misinformation, disinformation, and conspiracy theories.
- **Contact**: Being subjected to harmful online interaction with other users, e.g. peer pressure, commercial advertising, and adults posing as children or young adults with the intention to groom or exploit children.
- **Conduct**: Personal online behaviour that increases the likelihood of, or causes, harm, e.g. sending and receiving explicit messages, and Online bullying.
- **Commerce**: Risks such as online gambling, inappropriate advertising, phishing and/or financial scams.

The measures implemented to protect pupils and staff revolve around these areas of risk. Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

Legal framework

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Voyeurism (Offences) Act 2019
- The UK General Data Protection Regulation (UK GDPR)
- Data Protection Act 2018
- DfE (2024) 'Filtering and monitoring standards for schools and colleges'
- DfE (2021) 'Harmful online challenges and online hoaxes'
- DfE (2024) 'Keeping children safe in education 2024'
- DfE (2023) 'Teaching online safety in school'
- DfE (2022) 'Searching, screening and confiscation'
- DfE (2023) 'Generative artificial intelligence in education'
- Department for Science, Innovation and Technology and UK Council for Internet Safety (2024) 'Sharing nudes and semi-nudes: advice for education settings working with children and young people'
- UK Council for Child Internet Safety (2020) 'Education for a Connected World – 2020 edition'
- National Cyber Security Centre (2020) 'Small Business Guide: Cyber Security'
- Online Safety Act 2023 and associated Codes of Practice (2025), including child safety duties under sections 12 and 29.

This policy operates in conjunction with the following school policies:

- Allegations of Abuse Against Staff Policy
- Technology Acceptable Use Agreement
- Child Protection and Safeguarding Policy
- Anti-Bullying Policy
- Staff Code of Conduct
- Behaviour Policy
- Disciplinary Policy and Procedure
- Data Protection Policy

Roles and responsibilities

The governing board will be responsible for:

- Ensuring that this policy is effective and complies with relevant laws and statutory guidance.
- Ensuring the DSL's remit covers online safety.
- Reviewing this policy every two years.
- Ensuring their own knowledge of online safety issues is up-to-date.
- Ensuring all staff undergo safeguarding and child protection training, including online safety, at induction and at regular intervals.
- Ensuring that there are appropriate filtering and monitoring systems in place.
- Ensuring that the effectiveness of filtering and monitoring systems is reviewed at least annually in liaison with ICT partners.

- Ensuring that the SLT and other relevant staff have an awareness and understanding of the filtering and monitoring provisions in place, and manage them effectively and know how to escalate concerns when identified.
- Ensuring that all relevant school policies have an effective approach to planning for, and responding to, online challenges and hoaxes embedded within them.

The headteacher will be responsible for:

- Ensuring that online safety is a running and interrelated theme throughout the school's policies and procedures, including in those related to the curriculum, teacher training and safeguarding.
- Supporting the deputy DSLs by ensuring they have enough time and resources to carry out their responsibilities in relation to online safety.
- Ensuring staff receive regular, up-to-date and appropriate online safety training and information as part of their induction and safeguarding training.
- Ensuring online safety practices are audited and evaluated.
- Organising engagement with parents to keep them up-to-date with current online safety issues and how the school is keeping pupils safe.
- Working with the DSL and ICT providers to conduct termly light-touch reviews of this policy.
- Working with the DSL and governing board to update this policy every two years.
- Ensuring written confirmation is obtained from any alternative provision providers that appropriate safeguarding checks have been carried out, in line with KCSIE 2025.

The DSL will be responsible for:

- Taking the lead responsibility for online safety in the school.
- Undertaking training so they understand the risks associated with online safety and can recognise additional risks that pupils with SEND face online.
- Liaising with relevant members of staff on online safety matters, e.g. the SENCO and ICT partners.
- Ensuring online safety is recognised as part of the school's safeguarding responsibilities and that a coordinated approach is implemented.
- Ensuring safeguarding is considered in the school's approach to remote learning.
- Establishing a procedure for reporting online safety incidents and inappropriate internet use, both by pupils and staff, and ensuring all members of the school community understand this procedure.
- Understanding the filtering and monitoring processes in place at the school.
- Ensuring that all safeguarding training given to staff includes an understanding of the expectations, roles and responsibilities in relation to filtering and monitoring systems at the school.
- Maintaining detailed, secure and accurate written records of reported online safety concerns as well as the decisions and whether or not referrals have been made.
- Understanding the purpose of record keeping.
- Monitoring online safety incidents to identify trends and any gaps in the school's provision, and using this data to update the school's procedures.
- Reporting to the governing board about online safety on a termly basis through safeguarding governor.

- Working with the headteacher and ICT partners to conduct termly light-touch reviews of this policy.
- Working with the headteacher and governing board to update this policy on an annual basis.

ICT partners (Ask4support) will be responsible for:

- Providing technical support in the development and implementation of the school's online safety policies and procedures.
- Implementing appropriate security measures as directed by the headteacher.
- Ensuring that the school's filtering and monitoring systems are updated as appropriate.
- Working with the DSL and headteacher to conduct termly light-touch reviews of this policy.

All staff members will be responsible for:

- Adhering to the Acceptable Use Agreement and other relevant policies.
- Taking responsibility for the security of ICT systems and electronic data they use or have access to.
- Modelling good online behaviours.
- Maintaining a professional level of conduct in their personal use of technology.
- Having an awareness of online safety issues.
- Ensuring they are familiar with, and understand, the indicators that pupils may be unsafe online.
- Reporting concerns in line with the school's reporting procedure.
- Where relevant to their role, ensuring online safety is embedded in their teaching of the curriculum.

Pupils will be responsible for:

- Adhering to the Acceptable Use Agreement and other relevant policies.
- Seeking help from school staff if they are concerned about something they or a peer have experienced online.
- Reporting online safety incidents and concerns in line with the procedures within this policy.

Managing online safety

All staff will be aware that technology is a significant component in many safeguarding and wellbeing issues affecting young people, particularly owing to the rise of social media and the increased prevalence of children using the internet.

The DSL has overall responsibility for the school's approach to online safety, with support from deputies and the headteacher where appropriate, and will ensure that there are strong processes in place to handle any concerns about pupils' safety online. The DSL should liaise with the police or children's social care services for support responding to harmful online sexual behaviour.

The importance of online safety is integrated across all school operations in the following ways:

- Staff and governors receive regular training
- Staff receive regular email updates regarding online safety information and any changes to online safety guidance or legislation
- Online safety is integrated into learning throughout the curriculum
- Assemblies are conducted termly on the topic of remaining safe online
- Online safety workshops delivered to pupils over time.

The school will remain alert to forthcoming statutory guidance regarding gender-questioning children and will update this policy accordingly to ensure safeguarding remains robust and inclusive.

Handling online safety concerns

Any pupil disclosures to staff about online abuse, harassment, or exploitation—whether as a victim or on behalf of another—will be managed according to the Child Protection and Safeguarding Policy.

Staff recognise that harmful online sexual behaviour can escalate, so early intervention is important. Pupils displaying such behaviour may also be victims and should be supported.

If a victim requests confidentiality, the DSL will balance their wishes with the need to protect them and others. The DSL will meet with parents to discuss support and next steps. Confidentiality cannot be promised; information may be shared if legally required or in the public interest. If reporting against the victim's wishes, the reasons will be explained and support offered.

Concerns about staff online behaviour are reported to the headteacher (or chair of governors if about the headteacher). Concerns about pupils are reported to the DSL, who investigates with relevant staff and manages the case according to policy.

If illegal activity is suspected, the headteacher will contact the police. The school will avoid criminalising pupils for inadvertent or curiosity-driven behaviour. The Head Teacher/DSL should ensure that the needs of the child are put before the needs or reputation of the school in this process

All online safety incidents and responses are recorded by the DSL and Deputy DSLs on CPOMs.

Commented [sw1]: Will deputy DSLs and teachers also record on line incidents on CPOMS?

Online bullying

Online bullying can include, but is not limited to, the following:

- Threatening, intimidating or upsetting text messages
- Threatening or embarrassing pictures and video clips sent via mobile phone cameras
- Threatening or bullying emails, possibly sent using a pseudonym or someone else's name
- Unpleasant messages sent via instant messaging
- Unpleasant or defamatory information posted to blogs, personal websites and social networking sites, e.g. Facebook
- Abuse between young people in intimate relationships online i.e. teenage relationship abuse
- Discriminatory bullying online i.e. homophobia, racism, misogyny/misandry.

The school will be aware that certain pupils can be more at risk of abuse and/or bullying online, such as LGBTQ+ pupils and pupils with SEND.

Online bullying against pupils or staff is not tolerated under any circumstances. Incidents of online bullying are dealt with quickly and effectively wherever they occur in line with the Anti-bullying Policy.

Child-on-child sexual abuse and harassment

All staff must know the signs of abuse, neglect, and exploitation, including online risks, both in and out of school. Staff understand pupils may be less likely to report concerning online sexual behaviours, especially if using age-inappropriate sites.

Examples of online harmful sexual behaviour staff must recognise:

- Threatening, facilitating or encouraging sexual violence
- Upskirting, i.e. taking a picture underneath a person's clothing without consent and with the intention of viewing their genitals, breasts or buttocks
- Sexualised online bullying, e.g. sexual jokes or taunts
- Unwanted and unsolicited sexual comments and messages
- Consensual or non-consensual sharing of sexualised imagery
- Abuse between young people in intimate relationships online, i.e. teenage relationship abuse

Staff must promote zero tolerance for sexual harassment or abuse and challenge any attempts to minimise such behaviour. Staff will be aware that allowing such behaviour can normalise abuse and discourage reporting.

Staff are aware that creating, possessing, or sharing indecent images of anyone under 18 is a criminal offence, even where the imagery is created, possessed, and distributed with the permission of the child depicted, or by the child themselves.

The school recognises that victims and alleged perpetrators may interact on social media after a report, sometimes leading to further harassment.

All concerns about online child-on-child sexual abuse or harassment are reported to the DSL, who investigates in line with relevant policies, regardless of where or how the incident occurred.

Grooming and exploitation

Grooming is defined as the situation whereby an adult builds a relationship, trust and emotional connection with a child with the intention of manipulating, exploiting and/or abusing them.

Staff will be aware that grooming often takes place online and that pupils who are being groomed are commonly unlikely to report this behaviour for many reasons, e.g. the pupil may have been manipulated into feeling a strong bond with their groomer and may have feelings of loyalty, admiration, or love, as well as fear, distress and confusion.

Due to the fact pupils are less likely to report grooming than other online offences, it is particularly important that staff understand the indicators of this type of abuse. The DSL will ensure that online safety training covers online abuse, the importance of looking for signs of grooming, and what the signs of online grooming are, including:

- Being secretive about how they are spending their time online.
- Having an older boyfriend or girlfriend, usually one that does not attend the school and whom their close friends have not met.

- Having money or new possessions, e.g. clothes and technological devices, that they cannot or will not explain.

Child sexual exploitation (CSE) and child criminal exploitation (CCE)

Although CSE often involves physical sexual abuse or violence, online elements may be prevalent, e.g. sexual coercion and encouraging children to behave in sexually inappropriate ways through the internet. In some cases, a pupil may be groomed online to become involved in a wider network of exploitation, e.g. the production of child pornography or forced child prostitution and sexual trafficking.

CCE is a form of exploitation in which children are forced or manipulated into committing crimes for the benefit of their abuser, e.g. drug transporting, shoplifting and serious violence. While these crimes often take place in person, it is increasingly common for children to be groomed and manipulated into participating through the internet.

Where staff have any concerns about pupils with relation to CSE or CCE, they will notify the DSL of these concerns without delay, who will then manage the situation in line with the Child Protection and Safeguarding Policy.

Radicalisation

Radicalisation is the process by which a person comes to support terrorism and extremist ideologies. This process can occur through direct recruitment, e.g. individuals in extremist groups identifying, targeting and contacting young people with the intention of involving them in terrorist activity, or by exposure to violent ideological propaganda. Children who are targets for radicalisation are likely to be groomed by extremists online to the extent that they believe the extremist has their best interests at heart, making them more likely to adopt the same radical ideology.

Staff members will be aware of the factors which can place certain pupils at increased vulnerability to radicalisation, as outlined in the Prevent Duty Policy. Staff will be expected to exercise vigilance towards any pupils displaying indicators that they have been, or are being, radicalised.
Where staff have a concern about a pupil relating to radicalisation, they will report this to the DSL without delay, who will handle the situation in line with the Prevent Duty Policy.

Mental health

Staff will be aware that online activity both in and outside of school can have a substantial impact on a pupil's mental state, both positively and negatively. The DSL will ensure that training is available to help ensure that staff members understand popular social media sites and terminology, the ways in which social media and the internet in general can impact mental health, and the indicators that a pupil is suffering from challenges in their mental health. Concerns about the mental health of a pupil will be dealt with in line with the Social, Emotional and Mental Health (SEMH) Policy.

Online hoaxes and harmful online challenges

For the purposes of this policy,

- **Online hoax**: A deliberate lie spread online, usually to scare or distress.

- **Harmful online challenge**: A social media trend targeting young people, where participants record and share videos of themselves doing a challenge. It becomes harmful if it risks physical or emotional harm, either directly or through how the video is shared—especially depending on the pupil's age and depiction.

Where staff suspect there may be a harmful online challenge or online hoax circulating amongst pupils in the school, they will report this to the DSL immediately.

The DSL will assess each case individually to determine the nature and scale of risk—local or national. Where the harmful content is prevalent mainly in the local area, the DSL will consult with the LA to prevent wider spread.

Prior to deciding how to respond to a harmful online challenge or hoax, the DSL and the headteacher will decide whether each proposed response is:

- In line with any advice received from a known, reliable source, e.g. the UK Safer Internet Centre, when fact-checking the risk of online challenges or hoaxes.
- Careful to avoid needlessly scaring or distressing pupils.
- Not inadvertently encouraging pupils to view the hoax or challenge where they would not have otherwise come across it, e.g. where content is explained to younger pupils but is almost exclusively being shared amongst older pupils.
- Proportional to the actual or perceived risk.
- Helpful to the pupils who are, or are perceived to be, at risk.
- Appropriate for the relevant pupils' age and developmental stage.
- Supportive.
- In line with the Child Protection and Safeguarding Policy.

If pupils are at risk, the DSL will address the issue directly with the relevant individuals or age groups. A **school-wide response** will only be used if the risk of increasing exposure is considered and mitigated.

Cyber-crime

Cyber-crime is criminal activity committed using computers and/or the internet. There are two key categories of cyber-crime:

- **Cyber-enabled** – these crimes can be carried out offline; however, are made easier and can be conducted at higher scales and speeds online, e.g. fraud, purchasing and selling of illegal drugs, and sexual abuse and exploitation.
- **Cyber-dependent** – these crimes can only be carried out online or by using a computer, e.g. making, supplying or obtaining malware, illegal hacking, and 'booting', which means overwhelming a network, computer or website with internet traffic to render it unavailable.

School will factor into its approach to online safety the risk that pupils with a particular affinity or skill in technology may become involved, whether deliberately or inadvertently, in cyber-crime. Where there are any concerns about a pupil's use of technology and their intentions with regard to using their skill and affinity towards it, the DSL will consider a referral to the Cyber Choices programme, which aims to intervene where children are at risk of committing cyber-crime and divert them to a more positive use of their skills and interests.

The DSL and headteacher will ensure that pupils are taught, throughout the curriculum, how to use technology safely, responsibly and lawfully.

In addition, the school will implement cyber awareness assemblies for pupils and staff to ensure that they understand the basics of cyber security and protecting themselves from cybercrime.

Online safety training for staff

The DSL will ensure that all safeguarding training given to staff includes elements of online safety, including how the internet can facilitate abuse and exploitation, and understanding the expectations, roles and responsibilities relating to filtering and monitoring systems. All staff will be made aware that pupils are at risk of abuse, by their peers and by adults, online as well as in person, and that, often, abuse will take place concurrently via online channels and in daily life.

Online safety and the curriculum

Online safety is embedded throughout the curriculum; however, it is particularly addressed in the following subjects:

- Relationships and health education
- PSHE
- Computing

Online safety teaching is always appropriate to pupils' ages and developmental stages.

Pupils are taught the underpinning knowledge and behaviours that can help them to navigate the online world safely and confidently regardless of the device, platform or app they are using. The underpinning knowledge and behaviours pupils learn through the curriculum include the following:

- How to evaluate what they see online
- How to recognise techniques used for persuasion
- Acceptable and unacceptable online behaviour
- How to identify online risks
- How and when to seek support
- Knowledge and behaviours that are covered in the government's online media literacy strategy

The online risks pupils may face online are always considered when developing the curriculum. The risks that are considered and how they are covered in the curriculum can be found in appendix A of this policy.

The DSL will help develop the school's online safety curriculum. Pupils will be consulted where appropriate, as they have insight into the websites and behaviours relevant to their age group.

Relevant staff (e.g., SENCO, designated teacher for CLA [Child looked after]) will work together to ensure the curriculum is tailored for vulnerable pupils, such as those with SEND or LAC, providing them with the necessary information and support. The school will personalise online safety teaching for more susceptible pupils and in response to incidents.

Class teachers will review external resources for suitability before use. External visitors may be invited to deliver parts of the curriculum, with the headteacher and DSL ensuring their appropriateness.

Before lessons, the class teacher and DSL will consider whether pupils may have experienced online abuse and plan to support them, avoiding drawing attention to affected pupils. Lessons will be delivered in a safe environment where pupils feel comfortable to speak and ask questions.

Any concerns raised during lessons will be reported according to the Child Protection and Safeguarding Policy. Disclosures of online abuse following a lesson will be handled in line with the same policy.

Use of technology in the classroom

A wide range of technology will be used during lessons, including the following:

- Computers
- Laptops
- Tablets
- Intranet
- Email
- Cameras

Prior to using any websites, tools, apps or other online platforms in the classroom, or recommending that pupils use these platforms at home, the class teacher will review and evaluate the resource. Class teachers will ensure that any internet-derived materials are used in line with copyright law.

Pupils will be supervised when using online materials during lesson time – this supervision is suitable to their age and ability.

Use of smart technology

While the school recognises that the use of smart technology can have educational benefits, there are also a variety of associated risks which the school will ensure it manages.

Pupils will be educated on the acceptable and appropriate use of personal devices.

Staff will use all smart technology and personal technology in line with the school's Staff Acceptable Use Policy.

The school recognises that pupils' unlimited and unrestricted access to the internet via mobile phone networks out of school means that some pupils may use the internet in an inappropriate use of smart technology, may include:

- Using mobile and smart technology to sexually harass, bully, troll or intimidate peers.
- Sharing indecent images, both consensually and non-consensually.
- Viewing and sharing pornography and other harmful content.

Children who have access to a mobile phone (usually year 5 & year 6 pupils) must hand phones to class teacher at the start of the school day and collect at the end of the school day. Mobile phones must be switched off and only switched on and accessed once out of the school gates. Pupil Mobile phones are prohibited at residentials and school events such as discos.

The school will hold assemblies, where appropriate, which address any specific concerns related to the misuse of smart technology and outline the importance of using smart technology in an appropriate manner.

The school will seek to ensure that it is kept up to date with the latest devices, platforms, apps, trends and related threats.

The school will consider the 4Cs (content, contact, conduct and commerce) when educating pupils about the risks involved with the inappropriate use of smart technology and enforcing the appropriate disciplinary measures.

Commented [sw2]: What about children in year 4 who may have a mobile phone? Would it be better to read 'all children who have access to a mobile phone……

Commented [KB3R2]: Generally Y5 and Y6 chn but will make general.

Commented [KB4R2]: Added: Mobile phones must be switched off and only switched on and accessed once out of the school gates.

Educating parents

The school will work in partnership with parents to ensure pupils stay safe online at school and at home. Parents will be provided with information about the school's approach to online safety and their role in protecting their children.

Parents will be made aware of the various ways in which their children may be at risk online, including, but not limited to:

- Child sexual abuse, including grooming.
- Exposure to radicalising content.
- Sharing of indecent imagery of pupils, e.g. sexting.
- Online bullying.
- Exposure to age-inappropriate content, e.g. pornography.
- Exposure to harmful content, e.g. content that encourages self-destructive behaviour.

Parents will be informed of the ways in which they can prevent their child from accessing harmful content at home, e.g. by implementing parental controls to block age-inappropriate content.

Parental awareness regarding how they can support their children to be safe online will be raised in the following ways:

- Parents' evenings
- Newsletters
- Online resources

Filtering and monitoring online activity

The governing board will ensure the school's ICT network has appropriate filters and monitoring systems in place and that it is meeting the DfE's 'Filtering and monitoring standards for schools and colleges' The Filtering systems must block harmful content including misinformation, disinformation, and conspiracy theories. The governing board will ensure 'over blocking' does not lead to unreasonable restrictions as to what pupils can be taught with regards to online teaching and safeguarding.

The DSL will ensure that specific roles and responsibilities are identified and assigned to manage filtering and monitoring systems and to ensure they meet the school's safeguarding needs.

The headteacher and ICT partners will undertake a risk assessment to determine what filtering and monitoring systems are required. The filtering and monitoring systems the school implements will be appropriate to pupils' ages, the number of pupils using the network, how often pupils access the network, and the proportionality of costs compared to the risks. ICT partners will undertake weekly checks on the filtering and monitoring systems to ensure they are effective and appropriate.

Requests regarding making changes to the filtering system will be directed to the headteacher. Prior to making any changes to the filtering system, ICT partners and the DSL will conduct a risk assessment. Any changes made to the system will be recorded by ICT partners. Reports of inappropriate websites or materials will be made to an ICT partners immediately, who will investigate the matter and makes any necessary changes.

Deliberate breaches of the filtering system will be reported to the DSL and ICT partners, who will escalate the matter appropriately. If a pupil has deliberately breached the filtering system, they will

be disciplined in line with the Behaviour Policy. If a member of staff has deliberately breached the filtering system, they will be disciplined in line with the Disciplinary Policy and Procedure.

If material that is believed to be illegal is accessed, inadvertently or deliberately, this material will be reported to the appropriate agency immediately, e.g. the Internet Watch Foundation (IWF), CEOP and/or the police.

The school's network and school-owned devices will be appropriately monitored. All users of the network and school-owned devices will be informed about how and why they are monitored. Concerns identified through monitoring will be reported to the DSL who will manage the situation in line with the Child Protection and Safeguarding Policy.

Currently the school uses Smoothwall for all Filtering and monitoring.

Device Use and Online Safety

In Key Stage 2, pupils are provided with laptops and iPads for learning. They are required to follow the school's Acceptable Use Policy, with regular guidance and supervision to ensure safe, responsible, and age-appropriate online behaviour. In Key Stage 1, pupils share iPads, and staff closely supervise usage to maintain safety and hygiene. All use of devices is supported by filtering and monitoring systems, in line with KCSIE 2025 requirements. Compliance with the DfE Cyber Security Standards and the school's Cyber Security Policy is regularly monitored and reviewed to ensure online safety measures effectively safeguard all pupils.

Network security

Technical security features, such as anti-virus software, will be kept up-to-date and managed by ICT partners. Firewalls will be switched on at all times. This is provided by West Berkshire County Council and reviewed by them to ensure they are running correctly, and to carry out any required updates.

Staff and pupils will be advised not to download unapproved software or open unfamiliar email attachments, and will be expected to report all malware and virus attacks to SLT who will then inform ICT partners.

All members of staff will have their own unique usernames and private passwords to access the school's systems. Pupils in class will be provided with their own unique username and private passwords as appropriate for programs and apps. Staff members and pupils will be responsible for keeping their passwords private.

Users will not be permitted to share their login details with others and will not be allowed to log in as another user at any time. If a user is found to be sharing their login details or otherwise mistreating the password system, the headteacher will be informed and will decide the necessary action to take.

Users will be required to lock access to devices and systems when they are not in use.

Emails

Access to and the use of emails will be managed in line with the Data Protection Policy and Acceptable Use Agreement.

Staff, pupils and governors will be given approved school email accounts and will only be able to use these accounts at school and when doing school-related work outside of school hours. Prior to being authorised to use the email system, staff and pupils must agree to and sign the Acceptable Use Agreement. Personal email accounts will not be permitted to be used on the school site. Any email that contains sensitive or personal information will only be sent using secure and encrypted email.

Staff members and pupils will be required to block spam and junk mail, and report the matter to ICT partners. The school's monitoring system can detect inappropriate links, malware and profanity within emails – staff and pupils will be made aware of this. Chain letters, spam and all other emails from unknown sources will be deleted without being opened. Online safety lessons will teach pupils about what a phishing email and other malicious emails might look like – and will include information on the following:

- How to determine whether an email address is legitimate
- The types of address a phishing email could use
- The importance of asking "does the email urge you to act immediately?"
- The importance of checking the spelling and grammar of an email

Any cyber-attacks initiated through emails will be managed in line with the Cyber Response and Recovery Plan.

Generative artificial intelligence (AI)

The school will take steps to prepare pupils for changing and emerging technologies, e.g. generative AI and how to use them safely and appropriately with consideration given to pupils' age.

The school will ensure its IT system includes appropriate filtering and monitoring systems to limit pupil's ability to access or create harmful or inappropriate content through generative AI.

The school will ensure that pupils are not accessing or creating harmful or inappropriate content, including through generative AI.

The school will take steps to ensure that personal and sensitive data is not entered into generative AI tools and that it is not identifiable.

The school will make use of any guidance and support that enables it to have a safe, secure and reliable foundation in place before using more powerful technology such as generative AI.

In the 2025/26 school year, we will develop our approaches to the use of and controls for systems that use large language models including generative AI tools such as Microsoft Copilot and Google Gemini as well as our approach to machine learning including the social risks that the use of such tools may enable.

The school website

The headteacher and office administrators will be responsible for the overall content of the school website – they will ensure the content is appropriate, accurate, up-to-date and meets government requirements.

The website will be managed in line with the DfE-approved school website compliance.

Use of devices

Staff members and pupils will be issued with school-owned devices to assist with their work, where necessary. Requirements around the use of school-owned devices can be found in the Acceptable Use Policy.

The use of personal devices on the school premises and for the purposes of school work will be managed in line with Acceptable Use Policy.

Monitoring and review

The school recognises that the online world is constantly changing; therefore, the DSL, ICT partners and the headteacher will conduct termly light-touch reviews of this policy to evaluate its effectiveness. The governing board, headteacher and DSL will review this policy in full every two years and following any online safety incidents.

Attendance and Safeguarding

The school recognises the link between attendance and safeguarding. In line with KCSIE 2025 and the statutory guidance *Working Together to Improve School Attendance*, attendance data will be monitored to identify patterns that may indicate online safety concerns or safeguarding risks.

Any changes made to this policy are communicated to all members of the school community.

Appendix A: Online harms and risks – curriculum coverage

Subject area	Description and teaching content	Curriculum area the harm or risk is covered in
How to navigate the internet and manage information		
Age restrictions	Some online activities have age restrictions because they include content which is not appropriate for children under a specific age. Teaching will include the following: • That age verification exists and why some online platforms ask users to verify their age • Why age restrictions exist • That content that requires age verification can be damaging to under-age consumers • What the age of digital consent is (13 for most platforms) and why it is important	This risk or harm will be covered in the following curriculum areas: • Health education • Computing
How content can be used and shared	Knowing what happens to information, comments or images that are put online. Teaching will include the following: • What a digital footprint is, how it develops and how it can affect pupils' futures • How cookies work • How content can be shared, tagged and traced • How difficult it is to remove something once it has been shared online • What is illegal online, e.g. youth-produced sexual imagery (sexting)	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing
Disinformation, misinformation and hoaxes	Some information shared online is accidentally or intentionally wrong, misleading or exaggerated. Teaching will include the following: • Disinformation and why individuals or groups choose to share false information in order to deliberately deceive • Misinformation and being aware that false and misleading information can be shared inadvertently • Misinformation and understanding that some genuine information can be published with the deliberate intent to harm, e.g. releasing private information or photographs	This risk or harm will be covered in the following curriculum areas: • Relationships and health education • Computing

	• Online hoaxes, which can be deliberately and inadvertently spread for a variety of reasons • That the widespread nature of this sort of content can often appear to be a stamp of authenticity, making it important to evaluate what is seen online • How to measure and check authenticity online • The potential consequences of sharing information that may not be true	
Fake websites and scam emails	Fake websites and scam emails are used to extort data, money, images and other things that can either be used by the scammer to harm the person targeted or sold on for financial, or other, gain. Teaching will include the following: • How to recognise fake URLs and websites • What secure markings on websites are and how to assess the sources of emails • The risks of entering information to a website which is not secure • What pupils should do if they are harmed, targeted, or groomed as a result of interacting with a fake website or scam email • Who pupils should go to for support • The risk of 'too good to be true' online offers, advertising and fake product sales designed to persuade people to part with money for products and services that do not exist	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing

Online fraud	Fraud can take place online and can have serious consequences for individuals and organisations. Teaching will include the following: • What identity fraud, scams and phishing are • That online fraud can be highly sophisticated and that anyone can be a victim • How to protect yourself and others against different types of online fraud • How to identify 'money mule' schemes and recruiters • The risk of online social engineering to facilitate authorised push payment fraud, where a victim is tricked into sending a payment to the criminal • The risk of sharing personal information that could be used by fraudsters	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing

	• That children are sometimes targeted to access adults' data • What 'good' companies will and will not do when it comes to personal details • How to report fraud, phishing attempts, suspicious websites and adverts	
Password phishing	Password phishing is the process by which people try to find out individuals' passwords so they can access protected content. Teaching will include the following: • Why passwords are important, how to keep them safe and that others might try to get people to reveal them • How to recognise phishing scams • The importance of online security to protect against viruses that are designed to gain access to password information • What to do when a password is compromised or thought to be compromised	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing

Personal data	Online platforms and search engines gather personal data – this is often referred to as 'harvesting' or 'farming'. Teaching will include the following: • How cookies work • How data is farmed from sources which look neutral • How and why personal data is shared by online companies • How pupils can protect themselves and that acting quickly is essential when something happens • The rights children have with regards to their data • How to limit the data companies can gather	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing
Persuasive design	Many devices, apps and games are designed to keep users online for longer than they might have planned or desired. Teaching will include the following: • That the majority of games and platforms are designed to make money, and that their primary driver is to encourage people to stay online for as long as possible to encourage them to spend money or generate advertising revenue • How notifications are used to pull users back online	This risk or harm will be covered in the following curriculum areas: • Health education • Computing

Privacy settings	Almost all devices, websites, apps and other online services come with privacy settings that can be used to control what is shared. Teaching will include the following: • How to find information about privacy settings on various sites, apps, devices and platforms • That privacy settings have limitations	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing
Targeting of online content	Much of the information seen online is a result of some form of targeting. Teaching will include the following: • How adverts seen at the top of online searches and social media have often come from companies paying to be on there and different people will see different adverts • How the targeting is done • The concept of clickbait and how companies can use it to draw people to their sites and services	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing

How to stay safe online		
Online abuse	Some online behaviours are abusive. They are negative in nature, potentially harmful and, in some cases, can be illegal. Teaching will include the following: • The types of online abuse, including sexual harassment, bullying, trolling and intimidation • When online abuse can become illegal • How to respond to online abuse and how to access support • How to respond when the abuse is anonymous • The potential implications of online abuse • What acceptable and unacceptable online behaviours look like	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing
Radicalisation	Pupils are at risk of accessing inappropriate and harmful extremist content online, including terrorist material. Extremist and terrorist groups use social media to identify and target vulnerable individuals. Teaching will include the following: • How to recognise extremist behaviour and content online • Which actions could be identified as criminal activity • Techniques used for persuasion	All areas of the curriculum
	• How to access support from trusted individuals and organisations	

Challenges	Online challenges acquire mass followings and encourage others to take part in what they suggest. Teaching will include the following: • What an online challenge is and that, while some will be fun and harmless, others may be dangerous and even illegal • How to assess if the challenge is safe or potentially harmful, including considering who has generated the challenge and why • That it is okay to say no and to not take part in a challenge • How and where to go for help • The importance of telling an adult about challenges which include threats or secrecy, such as 'chain letter' style challenges	This risk or harm will be covered in the following curriculum areas: • Relationships education
Content which incites violence	Knowing that violence can be incited online and escalate very quickly into offline violence. Teaching will include the following: • That online content (sometimes gang related) can glamorise the possession of weapons and drugs • That to intentionally encourage or assist in an offence is also a criminal offence • How and where to get help if they are worried about involvement in violence	This risk or harm will be covered in the following curriculum areas: • Relationships education •
Fake profiles	Not everyone online is who they say they are. Teaching will include the following: • That, in some cases, profiles may be people posing as someone they are not or may be 'bots' • How to look out for fake profiles	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing
Grooming	Knowing about the different types of grooming and motivations for it, e.g. radicalisation, child sexual abuse and exploitation, gangs and financial exploitation. Teaching will include the following: • Boundaries in friendships with peers, in families, and with others • Key indicators of grooming behaviour	This risk or harm will be covered in the following curriculum areas: • Relationships education

	• The importance of disengaging from contact with suspected grooming and telling a trusted adult • How and where to report grooming both in school and to the police At all stages, it is important to balance teaching pupils about making sensible decisions to stay safe whilst being clear it is never the fault of the child who is abused and why victim blaming is always wrong.	
Unsafe communication	Knowing different strategies for staying safe when communicating with others, especially people they do not know or have not met. Teaching will include the following: • That communicating safely online and protecting your privacy and data is important, regardless of who you are communicating with • How to identify indicators of risk and unsafe communications • The risks associated with giving out addresses, phone numbers or email addresses to people pupils do not know, or arranging to meet someone they have not met before • What online consent is and how to develop strategies to confidently say no to both friends and strangers online	This risk or harm will be covered in the following curriculum areas: • Relationships education • Computing
Wellbeing		
Impact on quality of life, physical and mental health and relationships	Knowing how to identify when online behaviours stop being fun and begin to create anxiety, including that there needs to be a balance between time spent online and offline. Teaching will include the following: • How to evaluate critically what pupils are doing online, why they are doing it and for how long (screen time) • How to consider quality vs. quantity of online activity • The need for pupils to consider if they are actually enjoying being online or just doing it out of habit, due to peer pressure or due to the fear or missing out	This risk or harm will be covered in the following curriculum areas: • Health education

	• That time spent online gives users less time to do other activities, which can lead some users to become physically inactive • The impact that excessive social media usage can have on levels of anxiety, depression and other mental health issues • That isolation and loneliness can affect pupils and that it is very important for them to discuss their feelings with an adult and seek support • Where to get help	
Online vs. offline behaviours	People can often behave differently online to how they would act face to face. Teaching will include the following: • How and why people can often portray an exaggerated picture of their lives (especially online) and how that can lead to pressure. How and why people are unkind or hurtful online when they would not necessarily be unkind to someone face to face	This risk or harm will be covered in the following curriculum areas: • Relationships education
Suicide, self-harm and eating disorders	Pupils may raise topics including eating disorders, self harm and suicide. Teachers must be aware of the risks of encouraging or making these seem a more viable option for pupils and should take care to avoid giving instructions or methods and avoid using language, videos and images.
